

Syllabus

Learn and solve mathematical problems using Vedic Maths techniques.

Vedic Maths techniques help to improve maths calculation speed as compared to the modern mathematical methods.

Solve math problems in seconds—almost at your fingertips using Vedic Maths Techniques.

Session	Topic
1	Compliment and Addition
2	Subtraction
3	Multiplication
4	Special Multiplication
5	Division
6	Addition of Series
7	Square
8	Square roots (perfect number)
9	HCF
10	LCM
11	Mixed fraction
12	Division of polynomial
13	Square roots (imperfect number)
14	Cube
15	Cube roots

16	Average
17	Percentage
18	Factorization
19	Quadratic equation
20	Simultaneous equation
21	Linear equation

**India's biggest Ancient Indian Mathematics Competition by IIT
Bombay alumni.**

Through this competition, AICTSD Board promotes the rich heritage of ancient Indian mathematics among the young and dynamic students of India.
